Mother's name/ job	Philosophy university professor
Father's name/ job	University and adults' school professor
Brothers or sisters?	Yes, I have a twin sister called Clara.
Hobbies/sports (Please fill in extensively (40-50 words) in order to give us the chance to make a good match with the exchange student)	I like reading and drawing, although I don't usually do it much, and listening to music. I also enjoy cooking with my sister and writing, and love going to the cinema. I've played the violin since I was 3 years old. I used to go to the conservatory, but for the last few years I've been taking lessons in an academy, because I just wanted to have fun with it. Although I'm not very sportive, I played tennis for over 4 years with a friend and a particular teacher. However, last year we quitted it and started playing padel with 2 more friends. I prefer tennis, I think it requires a lot more attention and effort, but I still have fun playing another sport.
Favourite subjects in school (Justify your choices)	I would say my favourite subjects in school are Maths, Physics and Chemistry and Biology, mainly because they are really practical, and I find them more interesting than subjects that require a lot of memorising. I also enjoy writing and reading, so I like Spanish, although I prefer more science related subjects.
Preferences in music and cinema (favourite music bands, films, musical styles...) (Justify your choices)	My favourite shows are Gilmore Girls and Modern Family, they are very calm and enjoyable. I really like watching action and sci-fi films (Dune, the Divergent series, The Hunger Games...) and old rom-coms, like "10 Things I Hate About You", "How to Lose a Guy in 10 Days", "Clueless", "13 going on 30", etc. However, I have a very broad taste in cinema, and I enjoy almost any type of films. About music, at the moment I like listening to The Smiths and I love some of Elvis Presley's songs.

	However, I enjoy almost all genres of music, and I listen to a lot of different things, although I don't like Spanish music at all.
(Give a good description of your personality , 50 words should be enough)	I consider myself to be a very empathic and kind person, who is always trying to make people feel better. I'm also a perfectionist and hard-working, I always put a lot of effort in everything I do. I'm very talkative with the people I'm comfortable with, and I'm pretty responsible and respectful.
MEDICAL DATA AND PRACTICAL INFORMATION	
Medical data • Allergies (food, pets..) • Food intolerances • Medicine use • Others...	Nothing.
Diet • vegetarian • for religious reasons • food intolerances	Nothing relevant.

Any other relevant information?

- **Pets in the house?** *(if yes, which and how many?)*
- **Pets in your host's house:** Would you mind having a pet in your host's house?
- **Are you/your parents willing to house or being matched with an exchange student of the opposite sex?** *(separate room required)*

Yes, I have a 10-year-old orange cat named Platón. He is pretty shy and calm, but very loving and affectionate when he gets used to you.

No, I wouldn't mind having pets in my host's house, I love animals.

Yes, I don't mind being matched with an exchange student of the opposite sex, and neither do my parents. I can offer a separate room.
